## *THE TAX TRAIN IS COMING*

### Logline

**As the US debt spirals out of control, it threatens to disrupt traditional retirement alternatives with an impending freight train of onerous taxes.**

### Synopsis

**The Power of Zero: The Tax Train Is Coming is a 75 minute documentary by Director Doug Orchard that takes an in-depth look at how the U.S. National Debt is setting the stage for massive tax increases within the next 10 years and how they'll impact a retiring generation of Baby Boomers. With an all-star cast of US academic economists, fiscally concerned politicians, and the nation's top financial advisors, this is the first major film to explore our nation's looming debt crisis and the proactive measures Baby Boomers can take to protect their retirement plans from the crush of higher taxes.**

# Director

**Doug Orchard is a Producer, Director and Cinematographer. He is a multi-award winning filmmaker known for his work on 'The Motivation Factor' and 'Fasting,' both of which linked poor health choices with the US National Debt. Mr. Orchard has directed 5 documentary films. His concern about the US debt came in 2003 while listening to US Comptroller General David Walker, CPA. Mr. Orchard is disgusted with the apparent ambivalence that almost all US Political Leaders show toward the unsustainable burden of the US National Debt**
